Abstract of DE 19846451 (A1) Sealing equipment comprises a sealant container (10) with an inlet from a gas pressure source (12) connecting with an outlet linked to the inflatable object. Both the inlet and outlet are formed in a removable unit (20) which can be screwed onto the container. An Independent claim is also included for the removable unit (20). Preferred Features: The container (10) and/or the one piece removable unit (20) are molded in a recyclable plastic.
